

**A SUSTAINABLE
WORLD**

CAN YOU MAKE IT HAPPEN?

The world is crying out for real leadership, for people with the passion and the intelligence to understand long-term global issues, and the political, community and business nous to tackle the sustainability crisis.

If you have the potential, **the Centre for Sustainability Leadership Fellowship Program** can help you step up to the mark by equipping you with the right skills, knowledge, networks and mentors. **Our aim is to help people who care to be influential in making real change happen.**

The Fellowship Program provides a cutting-edge curriculum, with access to Australia's top leaders and a network of the best and brightest young minds in the country. Each year we select 25 people from all around Australia to join the part-time program in Sydney and Melbourne - everyone from artists to engineers, lawyers to business professionals, doctors to uni students.

The 2010 course runs from April to November and involves weekly training evenings, residential retreats and project work. Scholarship places are available.

Information sessions: Melbourne: 16th February 2010 at 6pm
Sydney: 17th February 2010 at 6pm

**Fellowship Program applications close
28th February 2010**
